Note: Totals and percentages may not always add up due to rounding.

Source: WCIS database A significant amount of variation across years results from noncompliance and late reporting of claims. Data are based upon calendar year of injury. DWC believes that its database is representative of claims in California's workers' compensation (WC) industry.

Total claims by year of injury based upon reported location of injury using DN 33 (postal code of injury site). Counties included in each region are listed in Table 7a.
