March 29, 2016

To: Advisory Committee Members

From: Michael Nelmidia, Senior Safety Engineer

Subject: Working Alone in the Construction Industry/ Field Survey Operations

Thank you again for your participation in the June 2015, meeting of the Advisory Committee on Working Alone in the Construction Industry. A meeting has been scheduled to consider the recommendation of the subcommittee created at the conclusion of that June meeting—that the Committee's focus be narrowed to consider potential health and safety concerns associated with working alone during field surveying operations.

All Advisory Committee members interested in scrutinizing the intervening subcommittee's recommendations focusing on field surveying work, are invited to attend the next scheduled meeting of the full Advisory Committee.

The date, time, and location of the next full Advisory Committee meeting are as follows:

Tuesday, April 26, 2016
9:30 am—3:30 pm
Operating Engineers, Local 3
Large Training Room
3920 Lennane Drive
Sacramento, CA 95834

Attending Advisory Committee members are encouraged to be prepared to discuss not only the question of necessity for regulations regarding field surveying work (potentially) performed alone, but also the potential economic and fiscal impact of adopting regulations specific to that working situation.

Members of the public are welcome to attend and observe the proceedings; however, the Chair may limit the discussion to Committee members at his discretion.

Your assistance in the rulemaking process is most valued and appreciated by the Board and staff. Should you have any questions or comments, please contact me at (916) 274-5724 or by e-mail at mnelmida@dir.ca.gov.
