

**STANDARDS PRESENTATION
TO
CALIFORNIA OCCUPATIONAL SAFETY AND HEALTH STANDARDS BOARD**

PROPOSED STATE STANDARD,
TITLE 8, CHAPTER 4

Add new Section #####

Field Survey Operations, Working Alone

(a) When field survey operation are performed by an employee working alone, the employee shall be provided, within immediate reach of the employee, a reliable means of real-time two-way communication of the employee's location and situation, to a person or agency able to promptly arrange dispatch of needed emergency services to that employee.

(b) The employer shall include, as part of the employer's Injury and Illness Prevention Program, an effective means to ascertain the location and situation of an employee working alone at the end of each work-shift and at intervals throughout the work-shift commensurate with the predictable jobsite hazards.

Note: Authority cited: Section 142.3, Labor Code. Reference: Section 142.3, Labor Code.
