SB 6

(Caballero D) Local planning: housing: commercial zones.

Current Text: Introduced: 12/7/2020

Introduced: 12/7/2020

Status: 12/8/2020-From printer. May be acted upon on or after January 7.

Location: 12/7/2020-S. RLS.

Summary: The Planning and Zoning Law requires each county and city to adopt a comprehensive, long-term general plan for its physical development, and the development of certain lands outside its boundaries, that includes, among other mandatory elements, a housing element. This bill, the Neighborhood Homes Act, would deem a housing development project, as defined, an allowable use on a neighborhood lot, which is defined as a parcel within an office or retail commercial zone that is not adjacent to an industrial use. The bill would require the density for a housing development under these provisions to meet or exceed the density deemed appropriate to accommodate housing for lower income households according to the type of local jurisdiction, including a density of at least 20 units per acre for a suburban jurisdiction.

SB 7

(Atkins D) Environmental quality: Jobs and Economic Improvement Through Environmental Leadership Act of 2021.

Current Text: Introduced: 12/7/2020

Introduced: 12/7/2020

Status: 12/8/2020-From printer. May be acted upon on or after January 7.

Location: 12/7/2020-S. RLS.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report (EIR) on a project that the lead agency proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA authorizes the preparation of a master EIR and authorizes the use of the master EIR to limit the environmental review of subsequent projects that are described in the master EIR, as specified. This bill would require a lead agency to prepare a master EIR for a general plan, plan amendment, plan element, or specific plan for housing projects where the state has provided funding for the preparation of the master EIR.

SB 15

Summary: Current law establishes, among other housing programs, the Workforce Housing Reward Program, which requires the Department of Housing and Community Development to make local assistance grants to cities, counties, and cities and counties that provide land use approval to housing developments that are affordable to very low and low-income households. This bill, upon appropriation by the Legislature in the annual Budget Act or other statute, would require the department to administer a program to provide incentives in the form of grants allocated as provided to local governments that rezone idle sites used for a big box retailer or a commercial shopping center to instead allow the development of workforce housing
