No comments from the public on this item.

Eric Rood gave updates to the committee of where we are with the Rule Making packages. First and foremost he stated that we have it as an agenda item for the CAC that is being held tomorrow. We had both the Attorney General's office and the Directors legal unit go thru the language that was approved with AB2358 and there are some nonsubstance changes. Both packages we have done the 399, once the sign off has been done we will have two public meetings. The public meetings will be held in Northern California and one in Southern California at the same time and these will be held in person and possibly held via Teleconference. Recommendations can be found here:
