

WHEN TO SUBMIT AN OSHA FORM 91(S) TO OMDS

Instance	Submission
Personal Samples	Always, no exceptions.
Area Samples	Whenever a citation results directly from the sample. Whenever it is the only sample taken for a particular hazard.
Bulk & Wipe Samples	Whenever a citation results directly from the sample. Whenever it is the only sample taken for a particular hazard.
Blood & Urine Samples	Always, no exceptions.
Screening Samples	Never. Summarize screening samples on the OSHA Form 98.

NOTE: Screening samples include any samples taken as input into the decision of whether or how to perform full shift or other sampling by which to document exposures. All of the above statements exclude screening samples from consideration. Screening samples are always reported to OMDS on the Screening Report, OSHA Form 98.
