

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

AMA Copyright Notice: The five character codes included in the OMFS Table A are obtained from Current Procedural Terminology (CPT®), copyright 1996, except Physical Medicine Codes which are copyright 1993, by the American Medical Association (AMA). CPT is developed by the AMA as a listing of descriptive terms and five character identifying codes and modifiers for reporting medical services and procedures performed by physicians.

The responsibility for the content of the OMFS Table A is with the State of California, Division of Workers' Compensation and no endorsement by the AMA is intended or should be implied. The AMA disclaims responsibility for any consequences or liability attributable or related to any use, nonuse or interpretation of information contained in OMFS Table A. No fee schedules, basic unit values, relative value guides, conversion factors or scales are included in any part of CPT. Any use of CPT outside of OMFS Table A should refer to the most current Current Procedural Terminology which contains the complete and most current listing of CPT codes and descriptive terms. Applicable FARS/DFARS apply.

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.

Table A - OMFS Physician Services Fees for Services Rendered on or after May 14, 2005

Formatting note: Codes with Professional and Technical Splits. Modifier 26 & TC

Codes with both a professional and technical component will appear on three consecutive lines in the table. The first line represents the professional component, the second line represents the technical component and the third line represents the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line. When a code is either 100% professional or 100% technical, it will appear on two consecutive lines. The first line will indicate whether it is professional or technical and the second will give the Global value. The OMFS RVU, OMFS CF and the Reduction Percentage will only appear on the Global value line.
