SECTION 822 CAUSE FOR ACTION
(Mental or Physical Illness Affecting Competency)

8. Respondent’s Physician’s and Surgeon’s Certificate No. A 20748 is subject to action under section 822 of the Code in that his ability to practice medicine safely is impaired because he is mentally ill, or physically ill affecting competency, as more particularly alleged hereinafter:

9. Between in and about 2012 to 2016, Respondent has been a practicing psychiatrist providing psychiatric care and treatment to patients in the community of San Ysidro, California.

10. In or about March of 2015, Respondent’s physician referred him for a neuropsychological evaluation. Respondent’s performance on that evaluation produced abnormal results. Specifically, Respondent was repetitive in some of his answers (suggesting memory loss), and was unable to state the month, or day, or identify the city he was in during the examination.

///

ACCUSATION (Case No. 800-2015-012781)
11. Pursuant to Business and Professions Code section 820, at the request of the Board, Respondent voluntarily presented to three doctors chosen by the Board for three types of medical examinations: psychiatric, physical and neuropsychological.

A. Psychiatric Examination:

On or about March 1, 2016, Respondent attended a psychiatric examination performed by A. A., M.D. Respondent scored 23/30 on the Montreal Cognitive Assessment test\(^2\) and his examination indicated a mild to moderate unspecified neurocognitive disorder.

B. Physical Examination:

On or about March 7, 2016, Respondent attended a physical examination performed by R. L., M.D. Dr. L. opined that Respondent suffers from mild short term memory impairment and inability to recall specific objects within one to two minutes of testing. Dr. L. recommended that Respondent undergo neuropsychological testing to determine whether Respondent had an illness or condition that would impact his ability to safely practice medicine.

C. Neuropsychological Examination:

On or about July 1, 2016, Respondent attended a neuropsychological fitness-for-duty examination performed by Dr. W. P., Ph.D. Respondent’s neuropsychological examination results showed memory impairment and impairment of most aspects of Respondent’s language. Dr. P. found that Respondent meets criteria for amnestic mild cognitive impairment and diagnosed Respondent with Mild Neurocognitive Disorder.

12. Dr. P. found that Respondent’s impairments on cognitive testing are sufficiently deficient that they can constitute a concern for his independent practice of medicine, and that Respondent’s current marked memory impairments pose a significant concern for his practice of medicine as it relates to the safety of the public.

\(^2\) A normal Montreal Cognitive Assessment test score is considered to be greater than 26/30.
PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Medical Board of California issue a decision:
