What suggestions do you have for the Department of Industrial Relations to better assist you with your program in the coming year? (attach additional sheets if necessary) 1. Apprentice Wage Rate Sheets should specify the pre-determined increases applicable ONLY to the apprentice rates (as opposed to identifying the "journeyman" increase). Contractors argue that "journeyman" increase does not apply to their apprentice wage rates. 2. The DAS website should have a portal that is available to contractors that allows them to research which Apprenticeship Programs they must submit their DAS140/DAS142 (if they are not approved to train) for EACH CRAFT. The current Apprenticeship Program website lists many apprenticeship training programs imbedded within the general craft's training jurisdiction, but this confuses the novice contractor. E.g. There should be a pull down option for "Brick Tenders," "Plaster Tenders" separate / apart from its current location under the "Laborer" option.
