**NOTICE REGARDING ADVISORY SCOPE OF WORK FOR
THE SOUTHERN CALIFORNIA IRON WORKERS'
GENERAL PREVAILING WAGE DETERMINATION**

The California Labor Code requires the Director of the Department of Industrial Relations to determine the prevailing rate of per diem wages for all workers employed upon public works projects. The Division of Labor Statistics and Research ("DLSR") undertook an investigation in 2009 to determine the prevailing wage rates for the **installation of solar and photovoltaic systems in Los Angeles, San Diego and Imperial Counties**. The results of the questionnaire have been compiled and based on them the minimum rate of pay for the work in question is performed by **Electricians: Inside Wiremen** for the Los Angeles, San Diego, and Imperial Counties General Prevailing Wage Determinations.

The type of work listed below, as identified in the Iron Workers 2007-2010 Master Labor Agreement, between District Council of Iron Workers of the State of California and vicinity and Iron Worker Employers State of California and a portion of Nevada, were not published or recognized for the **Los Angeles, San Diego, and Imperial Counties** by the Department of Industrial Relations starting with the **August 22, 2009** issuance of the Southern California Iron Workers' general determination, **C-20-X-1-2009-1** and continuing with any subsequent Southern California Iron Workers' general determinations until superseded by the Director. The rates associated with this unrecognized type of work (solar energy systems) **SHALL NOT** be applied or used on public works projects for the associated type of work.
