

## SCOPE OF WORK PROVISIONS

### CRAFT/CLASSIFICATION

Electrician: Inside Wireman, Technician; Cable Splicer; Inside Wireman (When Welding)

### ID

61-234-1

### LOCALITY

Monterey, San Benito & Santa Cruz Counties.

### BURGLAR ALARM AND FIRE ALARM INSTALLATION

The Department has issued several important notices specifying the prevailing rate of pay for the installation of burglar and fire alarms. The notices provide a summary of the applicable rates of pay for burglar and fire alarm installation by county. To view the important notices, please visit the [Director's General Prevailing Wage Determinations website for Important Notices Archive](https://www.dir.ca.gov/oprl/Important_Notices_Archive/Important_notices_archive.htm) ([https://www.dir.ca.gov/oprl/Important\\_Notices\\_Archive/Important\\_notices\\_archive.htm](https://www.dir.ca.gov/oprl/Important_Notices_Archive/Important_notices_archive.htm)).

For Burglar Alarm installation in Monterey, San Benito & Santa Cruz Counties, the minimum rate of pay would be that of Electrician: Communication and System Installer.

For Fire Alarm installation in Monterey, San Benito & Santa Cruz Counties, the minimum rate of pay would be that of Electrician: Inside Wireman.

Note: Installation of conduit, boxes, cables, and devices is performed at the Inside Wireman rate, and the final connection and programming is performed at the Communication and System Installer rate.

### SCOPE OF WORK

**SECTION 3.09. SCOPE** Employees employed under the terms of this Agreement shall do all the construction, installation, cutting, fitting, binding and erection of electrical electronic work and all electrical electronic maintenance thereon, meggering, hy-potting, calibrating and setting of all meters, control devices, overloads, electronic devices, electronic systems, communication systems and all related control wiring, including the final running tests. This shall include the installation and maintenance of temporary wiring and the installation and maintenance of electrical lighting, heat, and power equipment. Welding, burning, brazing, bending, drilling and shaping for fabricating of materials used in connection with the installation and erection of electrical wiring and equipment shall be performed by Employees employed under the terms of this Agreement. All conduit, tubing and equipment shall be cut and fitted by Employees employed under the terms of this Agreement. It shall be understood and agreed that the scope of work covered by this Agreement shall cover all of the electrical and other related work included in the specification of each and every job.

When a contractor has knowledge that a portion of the electrical work covered under this Agreement is not included under his work to be performed, the contractor shall notify the Union.

**SECTION 3.22. CABLE SPLICING** All work of joining, splicing, and insulating and placing of the flame-proof covering, where wiped lead joints are necessary, and on all splices over 2300 volts between any two (2) conductors on synthetic cable, shall be performed by cable splicers. Only Journeymen shall be used in assisting cable splicers. When a Journeyman is used to assist the cable splicer and provided the assistant is not required to perform work of a technical nature, the assistant may be paid at the Journeyman rate. Cable splicers shall not be required to work on wires or cable when the difference in potential is over three hundred (300) volts between any two (2) conductors or between any conductor and ground, unless assisted by another Journeyman. In no case, shall cable splicers be required to work on energized cables carrying in excess of four hundred and forty (440) volts.
