[REDACTED]

SECTION 3.14 Carrying tools or materials to and from the job is considered working. No workman shall carry tools or material outside of working hours except when using Employer's vehicle for Employee's own convenience.

SECTION 3.15 On any job where workmen are exposed to radioactive materials and/or radiation in excess of one-tenth of the maximum possible limits (MPL), as established by the International Commission on Radiation Protection, the Employer shall employ a qualified Journeyman Radiation Monitor working under the terms of this Agreement. Such radiation monitors shall determine the location of hazardous zones and shall be responsible for the radiation hazards therein. He shall maintain permanent and accurate time checks on all workmen entering and leaving such zones, including radiation dosages of all personnel emerging from the radiation zone. He shall also be in charge of a decontamination of personnel, their tools, material, or equipment. The radiation

monitor shall report to and be subject to the Steward and the supervising electrician on the job. Film badges and test equipment to be supplied by the Employer.

SECTION 3.16 Workmen employed under the terms of this Agreement shall do all electrical construction and installation of electrical and electronic work and all electrical maintenance thereon. This shall include the setting, processing, welding, cutting, burning, handling, and moving of all electrical materials, electrical equipment, and electrical apparatus, and the making of the final running test and the installation of all underground raceways. This shall also include the installation of all electrical lighting, heating and power equipment, photovoltaic systems, solar systems, fuel cells, all power generating green technology systems, electronic equipment, telemetering equipment, or any other electrical instrumental equipment, with the installation of all related wiring, control wiring, fixtures, instruments, and devices. All conduit shall be cut, threaded, and bent, other than 6" and less nipples and factory 45-degree and 90-degree bends. The drilling, chasing, and channeling necessary to complete electrical installation shall be performed by workmen employed under the terms of this Agreement. After material used in electrical work has reached a job site, it shall from thereon, be handled only by workmen employed under the terms of this Agreement. This shall not preclude the Union from furnishing workmen to other Employers for completion of electrical installation which are not included by the electrical contract.

It shall be understood that the scope of work covered by this Agreement does include the installation of telephone or communication work and the installation of all electronics or instrumentation equipment and related wiring.

SECTION 3.17 The cutting and threading of all conduit and nipples shall be performed by workmen under the terms of this Agreement.
