

SCOPE OF WORK PROVISIONS

CRAFT/CLASSIFICATION

Plumber: Plumber, Pipefitter & Refrigeration Fitter (HVAC), Service Technician

ID

204-159-1

LOCALITY

Contra Costa County

SCOPE OF WORK

ARTICLE I

COVERAGE OF AGREEMENT

[REDACTED]

4. WORK COVERED: This Agreement shall cover all work coming within the jurisdiction of the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry of the United States and Canada, as established and recognized by the Building and Construction Trades Department of the American Federation of Labor - Congress of Industrial Organization, including the Fifty-two (52) Points of Jurisdiction set forth in ARTICLE XX hereof.

[REDACTED]

ARTICLE III

TRADE OR WORK JURISDICTION

38. This Agreement covers the rates of pay, rules and working conditions of all journeymen and apprentices engaged in installation of plumbing and/or pipe fitting systems and component parts thereof, including fabrication, assembling, erection, installation, dismantling, repairing, reconditioning, adjusting, altering, servicing and handling, unloading, distribution, reloading, typing-on, signaling and hoisting of all piping materials, appurtenances and equipment, by any method, including all hangers and supports of every description and all other work included in the trade jurisdiction claims of the United Association.

[REDACTED]

ARTICLE XX

FIFTY-TWO POINTS OF JURISDICTION

165. The following is the jurisdiction of work of the United Association of Journeymen and Apprentices of the Plumbing and Pipe Fitting Industry of the United States, Canada and Local 159.

1. All piping for plumbing, water, waste, floor drains, drain grates, supply, leader soil pipe, grease traps, sewage, and vent lines.
2. All piping for water filters, water softeners, water meters and the setting of same.
3. All cold, hot and circulating water lines, piping for house pumps, cellar drainers, ejectors, house tanks, pressure tanks, swimming pools, ornamental pools, display fountains, drinking fountains, aquariums, plumbing fixtures and appliances, and the handling and setting of the above mentioned equipment.
4. All water services from mains to buildings, including water meters and water meter foundations.
5. All water mains from whatever source, including branches and fire hydrants, etc.
6. All down spouts and drainage areas, soil pipe, catch basins, manholes, drains, gravel basins, storm water sewers, septic tanks, cesspools, water storage tanks, etc.
7. All liquid soap piping, liquid soap tanks, soap valves, and equipment in bath and washroom shower stalls, etc.
8. All bathroom, toilet room and shower room accessories, i.e., towel racks, paper holders, glass shelves, hooks, mirrors, cabinets, etc.
9. All lawn sprinkler work, including piping, fittings and lawn sprinkler heads
10. All sheet lead lining for X-ray rooms, fountains, swimming pools or shower stalls, tanks or vats for all purposes and for roof flashings in connection with the pipe fitting industry.
11. All fire stand pumps, fire pumps, pressure and storage tanks, valves, hose racks, fire hose, cabinets and accessories, and all piping for sprinkler work of every description.
12. All block in tin coil carbonic gas piping for soda fountains and bars, etc.

13. All piping for railing work and racks of every description whether screwed or welded
14. All piping for pneumatic vacuum cleaning systems of every description whether screwed or welded.
15. All piping for hydraulic, vacuum, pneumatic, air, water, steam, oil, or gas used in connection with railway cars, railway motor cars and railway locomotives.
16. All marine piping and all piping used in connection with ship building and ship yards.
17. All power plant piping of every description.
18. The handling, assembling and erecting of all economizers, superheaters, regardless of the mode or method of making joints, hangers and erection of same.
19. All internal and external piping on boilers, heaters, tanks and evaporators, water legs, water backs and water grates, boiler compound equipment, etc.
20. All soot blowers and soot collection piping systems.
21. The setting, erecting and piping, for all smoke consuming and smoke washing and regulating devices.
22. The setting, erecting and piping of instruments, measuring devices, thermostatic controls, gauge boards and other controls used in connection with power, heating, refrigerating, air conditioning, manufacturing, mining and industrial work.
23. The setting and erecting of all boiler feeders, water heaters, filters, water softeners, purifiers, condensate equipment, pumps, condensers, coolers, and all piping for same in power houses, distributing boosting stations, refrigeration, bottling, distilling and brewing plants, heating, ventilating and air conditioning systems.
24. All piping for artificial gases, natural gases, and holders and equipment for same, chemicals, minerals and by-products and refining of same, for any and all purposes.
25. The setting and erecting of all underfeed stokers, fuel burners and piping, including gas, oil, power fuel, hot and cold air piping and all accessories and parts of burners and stokers.
26. All ash collecting and conveyor piping systems, including all air washing and dust collecting piping and equipment, accessories and appurtenances and regulating devices, etc.

27. The setting and erection of all oil heaters, oil coolers, storage and distribution tanks, transfer pumps and mixing devices and piping thereto of every description.
28. The setting, erecting and piping of all cooling units, pumps, reclaiming systems and appurtenances in connection with transformers, and piping to switches of every description.
29. All fire extinguishing systems and piping, whether by water, steam, gas or chemical, fire, alarm piping and control tubing, etc.
30. All piping for sterilizing, chemical treatment, deodorizing, and all cleaning systems of every description, and laundries for all purposes.
31. All piping for oil or gasoline tanks, gravity and pressure lubricating and greasing systems, air and hydraulic lifts, etc.
32. All piping for power or heating purpose, either by water, air, steam, gas, oil, chemicals or any other method.
33. All piping, setting and hanging of all units and fixtures for air conditioning, cooling, heating, roof cooling, refrigeration, ice making, humidifying, dehydrating by any method, and the charging and testing service of all work after completion.
34. All pneumatic tube work and all piping for carrying systems by vacuums, compressed air, steam, water or any other method.
35. All piping to stoves, fire grates, blast and heating furnaces, ovens, driers, heaters, oil burners, stokers and boilers and cooking utensils, etc. of every description.
36. All piping in connection with central distributing filtration treatment stations, boosting stations, waste and sewage disposal plants, central chlorination and chemical treatment work, and all underground supply lines to cooling wells, suction basins, filter basins, settling basins and aeration basins.
37. All process piping for refining, manufacturing industrial and shipping purposes of every character and description.
38. All air piping of every description.
39. All temporary piping of every description in connection with building and construction work, excavating and underground construction.
40. The laying out and cutting of all hole, chases and channels, the setting and erection of bolts, inserts, brackets, supports, sleeves, thimbles, hangers, conduit and boxes, used in connection with the pipe fitting industry.

41. The handling and setting of boilers, setting of fronts, setting of soot blowers and attaching all boiler trimmings.
42. All pipe transportation lines for gas, oil, gasoline, fluids and fluid water aqueducts and water lines, and booster stations of every description.
43. All acetylene and arc welding, brazing, lead burning, soldered and wiped joints, caulked joints, expanded joints, rolled joints or any other mode or method of making joints in connection with the pipe fitting industry
44. Laying out, cutting, bending and fabricating of all pipe work of every description, by whatever mode or method.
45. All methods of stress relieving of all pipe joints made by every mode or method.
46. The assembling and erecting of tanks used for mechanical, manufacturing or industrial purposes to be assembled with bolts, packed or welded joints.
47. The handling and using of all tools and equipment that may be necessary for the erection and installation of all work and materials used in the pipe fitting industry.
48. The operation, maintenance, repairing, servicing and dismantling of all work installed by journeymen members of the United Association.
49. All piping for cataracts, cascades, (i.e. artificial waterfalls), make-up water fountains, captured waters, water towers, cooling towers and spray ponds used for industrial manufacturing, commercial, or for any purpose.
50. Piping herein specified means pipe made from metal, tile, glass, rubber, plastics, wood, or any other kind of material or product manufactured into pipe, usable in the pipe fitting industry, regardless of size or shapes.
51. Without limiting or modifying the foregoing 50 points of jurisdiction in any way, it is agreed that in the construction of water treatment plants, wastewater (i.e. sewage) treatment plants, water reclamation plants, and all pumping facilities related to such plants, for work performed both inside and outside of buildings, this Master Labor Agreement will govern the unloading, distribution, fabrication, installation and testing of all process piping, soil, waste, vent, drain, vacuum, chemical, gas, petrochemical, domestic and process water piping, valves, hangers and supports, temporary piping of every description, pneumatic instrumentation and controls, hydraulic piping and tubing, all mechanical process equipment, including the setting of pumps, compressors, boilers, heat exchangers, centrifuges, heaters, tanks, chlorinators, ejectors and blowers integral to the piping system and all related piping thereof including all accessories and appurtenances for mechanical process equipment.

[REDACTED]

B. Without limiting or modifying the foregoing 52 points of jurisdiction in any way, it is agreed that this Master Labor Agreement will govern the unloading, distribution and installation of laboratory and cup sinks, regardless of composition, faucets and lab turrets and racks for compressed gas cylinders.
