SCOPE OF WORK

ARTICLE 2

SCOPE OF WORK

Section 1. The terms and conditions of this Agreement shall apply to all "covered work". Covered work shall be and mean the following materials and application methods: paints, pigments, oils, turpentine, japan dryers, thinners, varnishes, lacquers, shellac, stains, fillers, waxes, cement, joint cement, water and other vehicles; mediums that may be mixed and applied to the surfaces of materials and buildings, edifices, structures, monuments and the appurtenances thereto, of every type and description in their natural state of condition, or constructed or fabricated of any material or materials whatsoever and provided; work or services pertaining to: the application of texture, [REDACTED], plaster and stucco materials, incidental repairs, of all types and thickness on all surfaces.

- a)** Work or services pertaining to the painting, of all drywall and thin wall type surfaces, flushing or concrete surfaces, caulking and sealants between sheet rock walls and/or ceilings and floors of other materials.
- b)** Work or services pertaining to the application of wallpapers, wall fabrics and all types of coverings or coatings whether decorative or protective and all preparations necessary before said application.
- c)** Work or services pertaining to the application of protective coatings or products of similar nature whether they are plastic, vinyl, acrylics, epoxies, esters, urethanes, etc., or any new products of this nature including the application to floor surfaces.
[REDACTED]
- e)** Work or services pertaining to the finishing and surface preparation on all hardwood [REDACTED] floors [REDACTED].
- f)** Work or services pertaining to the priming and finish coats on fabricated metal or steel products.
[REDACTED]
- h)** Work or services pertaining to the cleaning, polishing and refinishing of metal [REDACTED].
- i)** Work or services pertaining to "steeplejack work".

j) Work or services pertaining to surface preparation and decoration of all types; including [REDACTED], abrasive blasting, steam cleaning, building washing, hydro blasting, water blasting and all the methods used in the removal of previously painted surfaces; [REDACTED].

[REDACTED]

ARTICLE 9 WAGES AND PAYMENT OF THE SAME

SECTION 3. JOURNEYMAN PREMIUM PAY

a) **High Pay** - work on an elevated, mechanically operated platform (including but not limited to: swing stage, boatswain chair, crane basket, heck lift) or rappelling work over forty (40) feet in height.

b) **Spray & Backroll Pay**- Employees spraying and/or backrolling.

c) **Paperhanger Pay** - Employees hanging paper.

d) **Specialty Pay** - Employees performing specialty work such as faux finishing, graining, or marbelizing.

SECTION 4. INDUSTRIAL PAINTING

Industrial projects shall mean new construction or maintenance work performed in the energy, power, water, wastewater, chemical, manufacturing, industrial buildings, heavy highway, bridges, overpasses, roadway tunnels, or any other industry requiring the use of protective coatings.
