**Optional Report #:** 015-21

**Citation and Notification of Penalty**

**Company Name:** Seton Medical Center  
**Establishment DBA:**

and its successors

**Inspection Site:** 1900 Sullivan Ave.  
Daly City, CA 94015

Citation 1 Item 1 Type of Violation: **General**

**Title 8 CCR 5199(e)(1)(B). Aerosol Transmissible Diseases.**

**(e) Engineering and Work Practice Controls, and Personal Protective Equipment.**

**(1) General. Employers shall use feasible engineering and work practice controls to minimize employee exposures to ATPs. Where engineering and work practice controls do not provide sufficient protection (e.g., when an employee enters an All room or area) the employer shall provide, and ensure that employees use, personal protective equipment, and shall provide respiratory protection in accordance with subsection (g) to control exposures to AirIPs.**

**(B) Each employer shall implement written source control procedures. For fixed health care and correctional facilities, and in field operations to the extent that it is reasonably practicable, these procedures shall incorporate the recommendations contained in the Respiratory Hygiene/Cough Etiquette in Health Care Settings. The procedures shall include methods to inform individuals entering the facility, being transported by employees, or otherwise in close contact with employees, of the source control practices implemented by the employer.**

Prior to and during the course of the investigation the Employer's source control procedures did not provide for effective measures to screen employees/persons entering the workplace, including but not limited to, confirming that the person has not been exposed to others with SARS-CoV-2 infection during the prior 14 days or they are not undergoing an evaluation or waiting for results of a pending viral test.

**Date By Which Violation Must be Abated:** **Corrected During Inspection**  
**Proposed Penalty:** **\$560.00**
