PBC Advisory Meeting Notice

The Division of Occupational Safety and Health will hold the third advisory committee meeting to consider the incorporation of ASME's performance-based code (PBC) for conveyances (ASME A17.7-2007) into Title 8, California Code of Regulations, as Article 45 of the Elevator Safety Orders.

PBC provides for a process in which manufacturers obtain a certificate of conformance by undergoing the risk assessment method, safety, and documentation process specified by ASME A17.7-2007 as administered by an Accredited Elevator Certification Organization (AECO). The PBC process provides for AECO's to issue certificates for all or part of an elevator or escalator system.

The PBC advisory committee meeting will take place at the following time, date, and location:

Place: Elihu Harris State Building
1515 Clay Street, Suite 1304
Oakland, CA 94612

Date: Wednesday, June 9, 2010

Time: 1:00 P.M.

The agenda will include discussion of draft proposed amendments to Title 8, which is attached.

The Division of Occupational Safety and Health cordially invites all interested parties to attend this meeting, which will be presided over by Len Welsh, Chief of the Division of Occupational Safety and Health. We look forward to your participation in this discussion.

Sincerely,

A handwritten signature in black ink that reads "Debra Tudor". The signature is written in a cursive, flowing style.

Debra Tudor, Principal Engineer
Elevator, Ride, and Tramway Unit
