## Citation and Notification of Penalty

To:  
Chevron U.S.A. Inc.  
  
and its successors  
841 CHEVRON WAY  
RICHMOND, CA 94801

Inspection Number: 314332370  
Inspection Date(s): 08/30/2012 - 01/30/2013  
  
Issuance Date: 01/30/2013  
CSHO ID: T6126  
Optional Report #: 001-13  
Reporting ID: 0950663

Inspection Site:  
841 CHEVRON WAY  
RICHMOND, CA 94801

*The violation(s) described in this Citation and Notification of Penalty is (are) alleged to have occurred on or about the day(s) the inspection was made unless otherwise indicated within the description given below.*

This Citation and Notification of Penalty (hereinafter Citation) is being issued in accordance with California Labor Code Section 6317 for violations that were found during the inspection/investigation. **This Citation or a copy must be prominently posted upon receipt by the employer at or near the location of each violation until the violative condition is corrected or for three working days, whichever is longer.** Violations of Title 8 of the California Code of Regulations or of the California Labor Code may result in some instances in prosecution for a misdemeanor.

**YOU HAVE A RIGHT** to contest this Citation and Notification of Penalty by filing an appeal with the Occupational Safety and Health Appeals Board. To initiate your appeal, you **must** contact the Appeals Board, in writing or by telephone, within 15 working days from the date of receipt of this Citation. If you miss the 15 working day deadline to appeal, the Citation and Notification of Penalty becomes a final order of the Appeals Board, not subject to review by any court or agency.

**Informal Conference** - You may request an informal conference with the Manager of the District Office which issued the Citation within 10 working days after receipt of the Citation. However, if the citation is appealed, you may request an informal conference at any time prior to the day of the hearing. Employers are encouraged to schedule a conference at the earliest possible time to assure an expeditious resolution of any issues. At the informal conference, you may discuss the existence of the alleged violation, classification of the violation, abatement date or proposed penalty.

Be sure to bring to the conference any and all supporting documentation of existing conditions as well as any abatement steps taken thus far. If conditions warrant, we can enter into an agreement which resolves this matter without litigation or contest.

## APPEAL RIGHTS

The Occupational Safety and Health Appeals Board (Appeals Board) consists of three members appointed by the Governor. The Appeals Board is a separate entity from the Division of Occupational Safety and Health (Division) and employs experienced attorneys as administrative law judges to hear appeals fairly and impartially. To initiate an appeal from a Citation and Notification of Penalty, you must contact the Appeals Board, in writing or by telephone, within 15 working days from the date of receipt of a Citation. After you have initiated your appeal, you must then file a completed appeal form with the Appeals Board, at the address listed below, for each contested citation. Failure to file a completed appeal form with the Appeals Board may result in dismissal of the appeal. Appeal forms are available from district offices of the Division, or from the Appeals Board:

Occupational Safety and Health Appeals Board

2520 Venture Oaks Way, Suite 300

Sacramento, CA 95833

Telephone: (916) 274-5751 or (877) 252-1987

Fax: (916) 274-5785

If the Citation you are appealing alleges more than one item, you must specify on the appeal form which items you are appealing. You must also attach to the appeal form a legible copy of the Citation you are appealing.

Among the specific grounds for an appeal are the following: the safety order was not violated, the classification of the alleged violation (e.g., serious, repeat, willful) is incorrect, the abatement requirements are unreasonable or the proposed penalty is unreasonable.

**Important:** You must notify the Appeals Board, not the Division, of your intent to appeal within 15 working days from the date of receipt of the Citation. Otherwise, the Citation and Notification of Penalty becomes a final order of the Appeals Board not subject to review by any court or agency. An informal conference with the Division does not constitute an appeal and does not stay the 15 working day appeal period. If you have any questions concerning your appeal rights, call the Appeals Board, (916) 274-5751 or (877) 252-1987.

## PENALTY PAYMENT OPTIONS

Penalties are due within 15 working days of receipt of this Citation and Notification of Penalty unless contested. If you are appealing any item of the citation, remittance is still due on all items that are not appealed. Enclosed for your use is a Penalty Remittance Form for payment.

If you are paying by credit card (MasterCard and Visa), please have the Penalty Remittance Form on-hand when you are ready to make our payment. The company name, index code, reporting ID, and Citation number(s) will be required in order to ensure that the payment is accurately posted to your account. Please go to [www.dir.ca.gov/dosh](http://www.dir.ca.gov/dosh) to access the secure payment processing site.

If you are paying by check, return one copy of the Citation, along with the Notice of Proposed Penalties Sheet and the Penalty Remittance Form and mail to:

Department of Industrial Relations  
Cashier, Accounting Office  
P. O. Box 420603  
San Francisco, CA 94142-0603

CAL/OSHA does not agree to any restrictions, conditions or endorsements put on any check or money order for less than the full amount due, and will cash the check or money order as if these restrictions, conditions, or endorsements do not exist.

## NOTIFICATION OF CORRECTIVE ACTION

For violations which you do not contest, you should notify the Division of Occupational Safety and Health promptly by letter that you have taken appropriate corrective action within the time frame set forth on this Citation and Notification of Penalty. Please inform the District Office listed on the Citation by submitting the CAL/OSHA Form 160 and/or 161 with the abatement steps you have taken and the date the violation was abated, together with adequate supporting documentation, e.g., drawings or photographs of corrected conditions, purchase/work orders related to abatement actions, air sampling results, etc. The adjusted penalty for serious and general violations **has already been** reduced by 50% on the presumption that the employer will correct the violations by the abatement date. **If the CAL/OSHA Form 161 is not received in the District Office within 10 days following the abatement date, the abatement credit is revoked, causing the penalty to double.**

**Note:** Return the CAL/OSHA Form 160/161 to the District Office listed on the Citation and as shown below:

Division of Occupational Safety and Health  
1450 Enea Circle, Suite 550  
Concord, CA 94520

## EMPLOYEE RIGHTS

**Employer Discrimination Unlawful** - The law prohibits discrimination by an employer against an employee for filing a complaint or for exercising any rights under Labor Code Section 6310 or 6311. An employee who believes that he/she has been discriminated against may file a complaint no later than six (6) months after the discrimination occurred with the Division of Labor Standards Enforcement.

**Employee Appeals** - An employee or authorized employee's representative may, within 15 working days of the issuance of a citation, special order, or order to take special action, appeal to the Occupational Safety and Health Appeals Board the reasonableness of the period of time fixed by the Division of Occupational Safety and Health (Division) for abatement. An employee appeal may be filed with the Appeals Board or with the Division. No particular format is necessary to initiate the appeal, but the notice of appeal must be in writing.

If an Employee Appeal is filed with the Division, the Division shall note on the face of the document the date of receipt, include any envelope or other proof of the date of mailing, and promptly transmit the document to the Appeals Board. The Division shall, no later than 10 working days from receipt of the Employee Appeal, file with the Appeals Board and serve on each party a clear and concise statement of the reasons why the abatement period prescribed by it is reasonable.

Employee Appeal Forms are available from the Appeals Board, or from a District Office of the Division.

**Employees Participation in Informal Conference.** Affected employees or their representatives may notify the District Manager that they wish to attend the informal conference. If the employer objects, a separate informal conference will be held.

## DISABILITY ACCOMMODATION

Disability accommodation is available upon request. Any person with a disability requiring an accommodation, auxiliary aid or service, or a modification of policies or procedures to ensure effective communication and access to the programs of the Division of Occupational Safety and Health, should contact the Disability Accommodation Coordinator at the local district office or the Statewide Disability Accommodation Coordinator at 1-866-326-1616 (toll free). The Statewide Coordinator can also be reached through the California Relay Service, by dialing 711 or 1-800-735-2929 (TTY) or 1-800-855-3000 (TTY-Spanish).

Accommodations can include modifications of policies or procedures or provision of auxiliary aids or services. Accommodations include, but are not limited to, an Assistive Listening System (ALS), a Computer-Aided Transcription System or Communication Access Realtime Translation (CART), a sign-language interpreter, documents in Braille, large print or on computer disk, and audio cassette recording. Accommodation requests should be made as soon as possible. Requests for an ALS or CART should be made no later than five (5) days before the hearing or conference.

T8CCR2395.78. Bonding in Hazardous Locations.

Regardless of the voltage of the electrical system, the electrical continuity of metal noncurrent-carrying parts of equipment, raceways, and other enclosures in any hazardous location as defined in Article 59 of these Orders shall be assured by any of the methods specified for services that are approved for the wiring method used.

On or before 08/30/12 the employer failed to assure the electrical continuity of electrical systems installed within hazardous locations throughout the refining plant. The following instances were not corrected as of the dates indicated below:

1. An electrical conduit and connection fitting installed under the first deck of Jet Stripper C-732, located in North ISOMAX adjacent to turbine pump 737, were completely separated from the conduit junction body. As of September 20, 2012, the vertically mounted rigid metal conduit (RMC) and exposed wiring remained unrepaired.
2. A bonding jumper was completely detached from a fixed grounding lug that was securely threaded to the connector on the end of a Liquid-Tight Flexible Metal Conduit (LFMC). As of September 27, 2012, the loose bonding wire remained disconnected from the electrical conduit serving controller #FV415 and associated equipment operating within D&R, Plant 37.
3. Two sections of flexible metallic conduit (FMC) at ground level in front of tubes #33 and #66 on the fourth deck of South ISOMAX, F-350, A-Cell/A-Train, sustained physical damage that left the interlocked helical coiling strips separated and stretched to the point where their bonding and grounding capabilities were significantly impaired. As of October 19, 2012, the damaged conduit and exposed wiring remained unrepaired.

Date By Which Violation Must be Abated:	03/04/2013
Proposed Penalty:	\$ 6750.00

T8CCR2473.1(b). Conductors Entering Boxes, Cabinets, or Fittings.

(a) Conductors entering cutout boxes, cabinets, or fittings shall be protected from abrasion, and openings through which conductors enter shall be effectively closed.

(b) Unused openings in cabinets, boxes, and fittings shall be effectively closed.

On or before October 27, 2012 the Employer failed to effectively plug an unused opening on the end of a Rigid Metal Conduit (RMC) fitting installed within a hazardous location at D&R, Plant 37, feed to temperature controller #38TI091B, C590 tray #1.

Date By Which Violation Must be Abated: 03/04/2013

T8CCR2473.2(a). Covers and Canopies.

All pull boxes, junction boxes, and fittings shall be provided with covers identified for the purpose. If metal covers are used, they shall be grounded. In completed installations, each outlet box shall have a cover, faceplate, or fixture canopy. Covers of outlet boxes having holes through which flexible cord pendants pass shall be provided with bushings designed for the purpose or shall have smooth, well-rounded surfaces on which the cords may bear.

On or before August 30, 2012, the Employer failed to provide covers on electrical conduit bodies installed in hazardous locations throughout the refining plant. The following instances were not corrected as of the dates indicated below.

1. As of 09/19/12, the Employer failed to replace a missing cover on a rigid conduit body installed in a hazardous location containing natural/methane gas on the fourth floor deck of South ISOMAX, Furnace 305, C-CELL.
2. As of 09/27/12, the Employer failed to replace a missing cover on a rigid conduit body installed in a hazardous location at the Distillation and Refining unit, located 15 feet above the ground next to furnace #F-447.

**Citation 6 Item 1** Type of Violation: **Willful Serious**

T8CCR5189(I).Process Safety Management of Acutely Hazardous Materials.

(1) The employer shall establish and implement written procedures to manage changes (except for "replacement in kind") to process chemicals, technology, and equipment, and changes to facilities.

(2) The procedures shall assure that the following are addressed prior to any change:

- (A) The technical basis for the proposed change;
- (B) Impact of change on safety and health;
- (C) Modifications to operating procedures;
- (D) Necessary time period for the change; and,
- (E) Authorization requirements for the proposed change.

As of the September 2012 dates indicated below, the Employer had not implemented its written procedures with regard to (A) Technical basis for the change, and (D) Necessary time period for the change, for the following three changes to its facilities.

1. As of September 12, 2012, MOC (Management of Change) number 16210, an injection fitting seal of a leak in a 3 inch block valve controlling flow at the east natural gas split at furnace F-305C on the 4th deck in South Isomax was in place 13 months beyond its MOC expiration date. The necessary time period for the change was not implemented.
2. As of September 27, 2012, MOC number 18408, a globe valve injection fitting on the 1S/C to 2 S/C on a 400 degree hydrocarbon line in the D&R 4 Crude plant was 2 years and 7 months beyond its MOC expiration date. The necessary time period for the change was not implemented.
3. As of September 27, 2012, MOC number 21513, an injection fitting for valve packing on a motor operated valve controlling the flow of 600 psi flammable product at the base of V-4030A in the D&R PenHex area had been in place since January, 2010. It was not replaced, as recommended in the MOC, at the next opportunity. In the technical basis for the change, the maximum time period before replacement was stated to be 5 years.

T8CCR6773(b). Fire Protection and Fire Fighting Equipment.

(b) Fire protection and fire fighting equipment shall be inspected, tested and maintained in serviceable condition. A record shall be kept showing the date when fire extinguishers and hose lines were last inspected, tested, repaired, or renewed. Fire protection and fire fighting equipment after any use shall promptly be made serviceable and restored to its proper location.

On or before 08/30/2012, the Employer failed to inspect, test, and maintain a section of an exposed fire service main, thus leaving it in a non-serviceable condition. Fire protection systems served by this fire service main include onsite fire hydrants and fixed monitor nozzles strategically placed to provide fire protection in the following areas: Flare gas recovery compressor, C-730 and associated furnace, north and south flare areas, cooling water tower, and the east side of TKN and RLOP plants.

As of September 20, 2012, the fire service main remained in a non-serviceable condition.

### Citation 8 Item 1 Type of Violation: **Willful Serious**

T8CCR6845(a). Piping, Fittings, and Valves.

(a) The design, fabrication, and assembly of piping systems installed prior to July 26, 2006, shall comply with General Industry Safety Orders and ASME B31.3- 1990, Chemical Plant and Petroleum Refinery Piping herein incorporated by reference. The design, fabrication, and assembly of piping systems installed on or after July 26, 2006, and the testing, inspection, and repair of all piping systems shall comply with Article 146 of the General Industry Safety Orders; API 570, Piping Inspection Code, Second Edition, October 1998, Addendum 3, August 2003; and ASME B31.3-2002, Process Piping; herein incorporated by reference.

As of September, 2012, dates indicated, a total of nine temporary nonwelding repairs identified below were not removed at the most recent turnaround:

1. MOC number 20968, a clamp covering two flanges and a valve at the outlet of furnace F-340 in South Isomax., conveying hot (> 600 deg F) natural gas. As of September 12, 2012, this was in place 2 years and 6 months past its last turnaround.
2. MOC number 18856, a valve packing injection fitting for a valve conveying natural gas to furnace F305 in South Isomax. As of September 18, 2012, this had been in place 30 months past its last turnaround.
3. MOC number 16210, an injection fitting in a block valve for the F 305 east split in South Isomax, conveying hot (> 600 deg F) natural gas. As of September 12, and 18, 2012. It had been in place for 6 years and was 30 months beyond the last turnaround.
4. MOC number 17395, a clamp covering the mating surface edge of two flanges for a feed gas orifice for furnace F 305 in South Isomax, conveying natural gas. As of September 12, 2012, it was still in place more than 5 years later and 30 months past the last turnaround.
5. MOC number 19758, a clamp enclosing an elbow at Stanchion A6 overhead in the TKN plant of North Isomax, conveying nitrogen at up to 200 psi. As of September 20, 2012. was still in place 2 years and 7 months past the last turnaround.

**EMPLOYER'S SIGNED STATEMENT OF ABATEMENT OF SERIOUS VIOLATIONS**

2. EMPLOYER: CHEVRON U.S.A. INC.

dba CHEVRON U.S.A. INC.

ADDRESS: 841 CHEVRON WAY  
RICHMOND, CA 94801 Street  
 City State Zip

3. The law requires that violations observed during the inspection/investigation completed on \_\_\_\_\_ of the place of employment located at 841 CHEVRON WAY RICHMOND, CA 94801 be corrected within the time limit specified. Labor Code 6320(b), requires that you submit this signed statement under penalty of perjury which describes the measures for abating each citation which alleges a serious violation. **If the signed statement is not received within 10 working days after the end of the period fixed for abatement, the Division will be required to revoke any adjustments to the civil penalty based upon the assumption that you will abate the violation.** This action will result in a doubling of the civil penalty for serious violations. If you have filed a timely appeal with reference to a particular citation, the abatement date is stayed during the appeal process and the Signed Statement need not be submitted at this time. In addition, if there are problems beyond your control that prevent meeting a specified abatement date, contact the Division early so that a request for extension can be considered.

This signed statement shall be posted for three (3) working days at or near each place the serious violation referred to in the citation occurred.

4. THIS FORM MUST BE RECEIVED AT THE ABOVE ADDRESS ON OR BEFORE:  
 \_\_\_\_\_
