For ≥ AL (2ug/M³)
- Repeated air monitoring (d)(6)(B)
- Initial blood lead testing (j)(1)(A)
- Medical surveillance if ≥ AL for > 10 days/yr. (j)(1)(B)
- Training program (l)(1)(B-D)
- Signs (m)(1)

For ≥ AL (2ug/M³) + Additional Protections
- Written employee notification (d)(8)(B)
- Engineering and work practice controls (e)(1)
- Compliance program (e)(2)
- Respiratory protection (f)(1)(A&B)
- Protective clothing (g)(1)
- Additional hygiene requirements (i)(2),(i)(3),(i)(4),(i)(6)
- Initial blood lead testing (j)(1)(A)
- Monthly BLL testing if > 500 µg/M³ (j)(2)(A)(5)
- If Pb-related construx.: trained by accredited trainer and certified by CDPH (l)(3)

Medical Removal Protection Criteria for Removal (k)(1)(A)&(B)
- 1 BLL ≥ 30 µg/dl; or
- Last 2 BLLs ≥ 20 µg/dl: or
- Avg. BLL in last 6 mos. ≥ 20 µg/dl; or
- Final medical determination

Removal from: (k)(1)(A)&(B)
- Work ≥ AL (2 µg/M³)
- Trigger task listed in (d)(2)
- Altering or disturbing lead materials

Content:
- Medical exam ASAP and then as med. appropriate (j)(3)(A)(3.)
- BLL testing at least monthly (j)(2)(A)(3.)

Additional Interim Protections for Level 3 trigger tasks:
- Shower facilities (i)(3)
- Monthly BLL testing (j)(2)(A)(4.)
- Interim limit of abrasive blasting to 5 hr/shift (2 hr/shift after 5 yrs.)

Interim Trigger Task Protections (d)(2)(E)
- Respiratory protection (f)(1)(D)
- Protective clothing (g)(1)
- Change areas (i)(2)
- Regulated area (i)(6), (includes signs)
- Prior blood lead testing (j)(1)(A)
- Medical surveillance (j)(1)(B) (if >10 days in 12 mos.)
- Training program (l)(1)(B-D)
- Lead-work pre-job notification (p)
