Subject: Document related to a recommendation at April 9th meeting

Wanted to send you this while I think of it. I talked at the meeting about the need to look at different ways to deal with endocrine disruptors. This is a link to the recent full report by the WHO and UNEP, with a summary for decision-makers:
<http://www.who.int/ceh/publications/endocrine/en/index.html>. May be helpful if you follow up on the recommendation.

Let me know if you have questions.
