AUTHORITY AND REFERENCE

The Administrative Director is undertaking this regulatory action pursuant to the authority vested in the Administrative Director by Labor Code sections 59, 133, 4603.5, 5307.1, and 5307.3.

Reference is to Labor Code Sections 4600, 4603.2, and 5307.1.

INFORMATIVE DIGEST / POLICY STATEMENT OVERVIEW

Existing law establishes a workers' compensation system, administered by the Administrative Director of the Division of Workers' Compensation, to compensate an employee for injuries sustained in the course of his or her employment. Labor Code section 5307.1 requires the Administrative Director to adopt an official medical fee schedule that establishes maximum fees paid for medical services under the workers' compensation system.

Existing law, commencing January 1, 2004, requires the Administrative Director to adopt these fees in accordance with the fee-related structure and rules of the relevant Medicare and Medi-Cal payment systems. Section 9789.70, which establishes fees for ambulance services, may be in conflict with the federal Airline Deregulation Act of 1978, to the extent that Section 9789.70 sets fees for providers which are air carriers within the meaning of the Act. This regulation amendment is intended to eliminate any conflict with the Act.

This proposed regulatory change implements, interprets, and makes specific Sections 4600, 4603.2, and 5307.1 of the Labor Code as follows:

Section 9789.70. Ambulance Services.

This section sets forth the maximum reasonable fees for ambulance services.

(a) This subdivision sets forth the maximum reasonable fees for ambulance services after January 1, 2004.

(b) This subdivision provides that for services not covered by a Medicare payment system, the maximum reasonable fee of the 2003 OMFS applies.

(c) This subdivision is added to provide that the section is inapplicable to air ambulance services if the provider is an air carrier as that term is defined in the Airline Deregulation Act of 1978.

DISCLOSURES REGARDING THE PROPOSED REGULATORY ACTION

The Administrative Director has made the following initial determinations:

• Significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states: none to minimal.

• Adoption of this regulation will not: (1) create jobs within the State of California; (2) create new businesses or eliminate existing businesses within the State of California; or (3) affect the expansion of businesses currently doing business in California.
• Adoption of this regulation will not eliminate jobs within the State of California.

• Effect on Housing Costs: None.

• Cost impacts on representative private person or business: The Administrative Director has made an initial determination that the proposed regulations will have the following cost impact that a representative private person or business would necessarily incur in reasonable compliance with the proposed regulations: To the extent that the representative private person or business is a self-insured employer or workers' compensation insurer and has employee claimants who utilize the services of an air ambulance provider, they may incur an increase in costs for the air ambulance services if they have not been paying for air ambulance services as required by the Airline Deregulation Act of 1978. As it is not known what is the current dollar volume of air ambulance services, there cannot be an estimate of the actual cost impact for any such representative private person or business. The Administrative Director has made an initial determination that the proposed regulations will not have a significant adverse economic impact on representative private persons or directly affected businesses. The entities directly affected by the regulation, which governs payments for air ambulance services in workers' compensation cases, include: (1) Providers of air ambulance services which are air carriers as defined in the Airline Deregulation Act of 1978; (2) employers who are large and financially secure enough to be permitted to self-insure their workers' compensation liability; (3) legally self-insured public agency employers; (4) private insurance companies which are authorized to transact workers' compensation insurance in California. Entities within (2), (3), and (4), above, may sustain an adverse economic impact.

FISCAL IMPACTS

• Costs or savings to state agencies or costs/savings in federal funding to the State: Minimal costs to state agencies in their capacity as employers, which may result from the need to revise computer programs, if any, for determining correct air ambulance maximum fees. Minimal additional costs to state agencies in their capacity as employers, which may result from increased fees to be paid to air ambulance services.

• Mandate on Local Agencies: None. The proposed regulations will not impose any new mandated programs or increased service levels on any local agency or school district. The potential costs imposed on all public agency employers by these proposed regulations, although not a benefit level increase, are not a new State mandate because the regulations apply to all employers, both public and private, and not uniquely to local governments. The Administrative Director has determined that the proposed regulations will not impose any new mandated programs on any local agency or school district. The California Supreme Court has determined that an increase in workers’ compensation benefit levels does not constitute a new State mandate for the purpose of local mandate claims because the increase does not impose unique requirements on local governments. See County of Los Angeles v. State of California (1987) 43 Cal.3d 46. The potential costs imposed on all public agency employers and payors by these proposed regulations, although not a benefit level increase, are similarly not a new State
mandate because the regulations apply to all employers and payors, both public and private, and not uniquely to local governments.

- **Cost to any local agency or school district that is required to be reimbursed under Part 7 (commencing with Section 17500) of Division 4 of the Government Code:** None. (See “Local Mandate” section above.)

- **Other nondiscretionary costs/savings imposed upon local agencies:** None. (See “Local Mandate” section above.)

**EFFECT ON SMALL BUSINESS**

The Administrative Director has determined that the proposed regulation will affect small business.

**CONSIDERATION OF ALTERNATIVES**

The Administrative Director has determined that no reasonable alternative considered or that has otherwise been identified and brought to the Administrative Director’s attention would be more effective in carrying out the purpose for which the actions are proposed, or would be as effective and less burdensome to affected private persons than the proposed actions.

The Administrative Director invites interested persons to present reasonable alternatives to the proposed regulation at the scheduled hearing or during the written comment period.

**PUBLIC DISCUSSIONS OF PROPOSED REGULATION**

The Division has not sponsored public discussion of the proposed regulation, as the Division has determined that this amendment of the regulation is required in order to avoid the expense of litigation on the applicability of the federal Airline Deregulation Act of 1978.

**AVAILABILITY OF INITIAL STATEMENT OF REASONS AND TEXT OF PROPOSED REGULATION / INTERNET ACCESS**
