Re: Claim Number: [REDACTED]  
Claims Administrator name: [REDACTED]  
Date of Disputed Services: 2/19/2013 – 2/19/2013  
MAXIMUS IBR Case: CB13-0000255

Dear [REDACTED],

**Determination:**

A Request for Independent Bill Review (IBR) was assigned to MAXIMUS Federal Services on 10/17/2013, by the Administrative Director of the California Division of Workers' Compensation pursuant to California Labor Code section 4603.6. MAXIMUS Federal Services has determined that the **Claims Administrator's determination is reversed. The Claims Administrator is required to reimburse you the IBR fee of \$335.00 and the amount found owing of \$995.49, for a total of \$1,330.49.**

**Pertinent Records and Other Appropriate Information Relevant to the Determination Reviewed:**

The following evidence was used to support the decision:

- The original billing itemization
- Supporting documents submitted with the original billing
- Explanation of Review in response to the original bill
- Request for Second Bill Review and documentation
- Supporting documents submitted with the request for second review
- The final explanation of the second review
- Official Medical Fee Schedule or negotiated contract: OMFS
- Other: California Workers' Compensation pharmacy fee schedule

**Supporting Analysis:**

The dispute regards the payment amount for pharmaceutical supplies for date of service 2/19/2013. The provider billed a total of \$21,600.00 for two medications using NDC 62991140706 (Dilaudid) and NDC 38779196806 (Sufenta). The Claims Administrator denied the pump refill medications with the explanation "These medications are included in the facility allowance. No payment is due."

The Independent Bill Review (IBR) case was forwarded to the Department of Workers' Compensation (DWC) for an eligibility review. The IBR case was deemed eligible for the IBR process by the DWC.

The medications were prescribed for an intrathecal pump fill and adjustment. The medications were ordered by the Provider and delivered to the Provider's office. The worker's pump was refilled and reprogrammed to deliver the medications: Hydromorphone (Dilaudid), and Sufentanil (Sufenta) on date of service 2/19/2013, at the surgery center.

The Provider has stated that medications are ordered and shipped to the Provider's office. The actual pump refill is performed at the surgery center to ensure the safety of the patient. Per the Provider, the types of medications being administered have a high potential for complications or resulting in the need for emergency services not available in the Provider's office.

Based on the documentation submitted by the Provider and Claims Administrator, the medications were not billed by the surgery center. The Provider submitted a Session Data Report, Pump Progress Report and Intrathecal Pump Maintenance Administration Record. The Pump Maintenance Record included a prescription for the two medications. Based on the documentation submitted, reimbursement is warranted for the medications billed by the Provider.

The Claims Administrator should have reimbursed the Provider for the medications billed using NDC 62991140706 (Hydromorphone) and NDC 38779196806 (Sufentanil). The total quantity per NDC was determined based on the quantity of medication (mg or mcg) per ml for a total quantity of 32 ml. The Session Data Report indicated a reservoir volume of 40ml. The prescription documented an order for Hydromorphone HCL 10 mg/ml and Sufentanil 250 mcg/ml. The medication amounts were converted to grams. The NDCs and Metric Decimal Units (MDU) were entered into the Workers' Compensation Pharmacy Compound Prescription Calculator.

MAXIMUS requested a copy of the PPO contract. The PPO contract submitted was not complete. The PPO contract indicated the allowance for Workers' Compensation services and supplies shall be reimbursed at the lesser of the PPO Fee Schedule or California Division of Workers' Compensation Official Medical Fee Schedule. A copy of the PPO fee schedule was not received as part of the documentation submitted. The recommended allowances and/or reimbursements were calculated based on the Official Medical Fee Schedule (OMFS).

The additional reimbursement of \$995.49 is warranted per the Workers' Compensation pharmacy fee schedule.

The chart below provides a comparison of billed charges and reimbursement rates for the codes and date of services at issue.

Validated Code	Validated Units	Dispute Amount	Total Fee Schedule Allowance	Provider Paid Amount	Allowed Recommended Reimbursement	Fee Schedule Utilized
62991140706	.32gm	\$18,954.50	\$995.49	\$0.00	\$995.49	OMFS
38779196806	.008gm					

MAXIMUS Federal Services, as the Independent Bill Review Organization, has determined the Claims Administrator owes the Provider additional reimbursement. The Claims Administrator is required to reimburse the Provider for the IBR application fee (**\$335.00**) and the OMFS amount for using NDC 62991140706 (Hydromorphone) and NDC 38779196806 (Sufentanil) (\$995.49) for a total of \$1,330.49.

***The Claims Administrator is required to reimburse the provider \$1,330.49 within 45 days of date on this notice per section 4603.2 (2a). This decision constitutes the final determination of the Division of Workers' Compensation Administrative Director, is binding on all parties, and is not subject to further appeal except as specified in Labor Code section 4603.6(f).***

Sincerely,

[REDACTED] RHIT
