HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider dissatisfied with reimbursement of code 97799-86
- Based on review of the Physician's Progress Report, procedure code 97799-86 is substantiated as the Provider documented services performed and Provider's Usual and Customary charge.
- The Physician Report details the injured worker's medical history, current medications, physical examination with accomplishments including functional strength, range of motion, function movement and lifting, dynamic posture and stabilization, psychological evaluation, treatment plan and a formal request for authorization, demonstrating that a thorough evaluation was performed on this injured worker
- Explanation of Review reflects a partial payment to the Provider and indicated "The charge exceeds the Official Medical Fee Schedule allowance. The charge has been adjusted to the scheduled allowance."
- Documents reviewed include the Request for Authorization of Medical Treatment (DWC Form RFA) for CPT code 97799 x 30 days (\$6,000 per 5 days in a week)
- Claims Administrator's Approval letter for complete Functional Restoration Program of 30 days was reviewed.
- PPO Contract was reviewed which shows a 5% discount is to be applied.
