## HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

## ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider dissatisfied with reimbursement of code 97799-86
- Based on review of the Physician's Initial Evaluation, procedure code 97799-86 is substantiated as the Provider documented services performed and Provider's Usual and Customary charge.
- The Physician Evaluation details the injured worker's medical history, current medications, physical examination including functional strength, range of motion, function movement and lifting, dynamic posture and stabilization, psychological evaluation, treatment plan and a formal request for authorization, a thorough evaluation was performed on this injured worker
- Claims Administrator based its reimbursement of 97799 86 on 97670. The OMFS does not list an allowance for 97799 or 97670; these are described as "By Report" codes.
- Documents reviewed included the Request for Authorization of Medical Treatment for an Initial Interdisciplinary Evaluation documenting Provider's cost at \$2500.00.
- Utilization Review Decision letter documented: Approved Initial Evaluation from 10/30/2013 – 11/30/2013
- Per the supplied PPO contract, covered services billed with a procedure code for which there is no assigned value, Provider shall be reimbursed at 95% of Eligible billed charges.
