## HOW THE IBR FINAL DETERMINATION WAS MADE

In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

## ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider is dissatisfied with reimbursement of billed codes 29870-59, 29880-59, 29884, 29876-59, 29877-59
- Claims administrator reimbursed partial payment indicating on the Explanation of Review “
- Pursuant to Labor Code section 5307.1(g)(2), the Administrative Director of the Division of Workers’ Compensation orders that Title 8, California Code of Regulations, sections 9789.30 and 9789.31, pertaining to Hospital Outpatient Departments and Ambulatory Surgical Centers Fee Schedule in the Official Medical Fee Schedule, is amended to conform to CMS’ hospital outpatient prospective payment system (OPPS). The Administrative Director incorporates by reference, the Centers for Medicare and Medicaid Services’ (CMS) Hospital Outpatient Prospective Payment System (OPPS) certain addenda published in the Federal Register notices announcing revisions in the Medicare payment rates. The adopted payment system addenda by date of service are found in the Title 8, California Code of Regulations, and Section 9789.39(b). Based on the adoption of the CMS hospital outpatient prospective payment system (OPPS), CMS coding guidelines and the hospital outpatient prospective payment system (OPPS) were referenced during the review of this Independent Bill Review (IBR) case
- Based on the provider type, the reimbursement for services is calculated on the Centers for Medicare and Medicaid Services (CMS) Outpatient Prospective Payment System

(OPPS). Procedures are assigned APC weights and "Proposed Payment Status Indicators." All codes billed have an assigned indicator of "T". The "T" indicator definition is, "Procedure or service, multiple reduction applies. Paid under OPPS; Separate APC payment," and thus qualifies for separate APC payment.

- Based on information reviewed, additional reimbursement is warranted.
