## HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

## ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider is dissatisfied with denial of code 29999 with comparable code 23440-Resection or transplantation of long tendon of biceps.
- Claims Administrator used comparable code 29822 - Arthroscopy, shoulder, surgical; debridement, limited.
- Page 3 of the Operative Report submitted states “A broad stump of the biceps tendon was released from its origin and allowed to retract distally...”
- Documentation supports code 23440 and therefore, reimbursement is warranted for service performed on date of service 4/21/2015.

The table below describes the pertinent claim line information.
