HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider is dissatisfied with denial of code 17999
- Claims Administrator denied code indicating on the Explanation of Review “We cannot review his service without necessary documentation. Please resubmit with indicated documentation as soon as possible”
- Provider documents the Labor code 9789.12.4 “By Report” reimbursement for unlisted procedures. **The Procedure shall be billed by report (report not separately reimbursable) justifying that the service was reasonable and necessary to cure or relieve from the effects of the industrial injury or illness.**
- A report by the treating physician was not submitted for this review. As such, an IBR decision of payment cannot be rendered. Therefore, reimbursement of 17999 is not warranted.

The table below describes the pertinent claim line information.
