HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE:** Provider is dissatisfied with reimbursement of G0431
- Claims Administrator reimbursed \$20.24 for date of service indicating on the Explanation of Review “The charge has been adjusted to the scheduled allowance”
- Pursuant to Labor Code section 5307.1(g) (2), the Administrative Director of the Division of Workers’ Compensation orders that the pathology and clinical laboratory fee schedule portion of the Official Medical Fee Schedule contained in title 8, California Code of Regulations, section 9789.50, is adjusted to conform to changes to the Medicare payment system that were adopted by the Centers for Medicare & Medicaid Services for calendar year 2014. Effective for services rendered on or after April 15, 2014, the maximum reasonable fees for pathology and laboratory services shall not exceed 120% of the applicable California fees set forth in the calendar year 2014 Clinical Laboratory Fee Schedule, contained in the electronic file “14CLAB” [ZIP 950 KB], which is incorporated by reference. Based on the adoption of the CMS payment system, CMS coding guidelines and fee schedule were referenced during the review of this Independent Bill Review (IBR) case.
- The toxicology results submitted report a quantitative measure of each drug screened.
- Upon review of Centers for Medicare & Medicaid Services (CMS) guidelines, HCPCS code G0434 is utilized to report urine drug screening performed by a test that is CLIA waived or moderate complexity test. Due to the complexity of the toxicology test

performed, the levels tracked and results obtained, the billed services shall be paid in accordance with HCPCS code G0431. The HCPCS code G0431 is reported with only one unit of service regardless of the number of drugs screened. The testing described by G0431 includes all CLIA high complexity urine drug screen testing as well as any less complex urine drug screen testing performed at the same patient encounter.

- The description of HCPCS code G0431 is "Drug screen, qualitative; multiple drug classes by high complexity test method (e.g. immunoassay, enzyme assay), per patient encounter." The drug screen services provided were of high complexity test method.
- The HCPCS code G0431 criteria has been met based on the documentation submitted by the Provider. Therefore, the code assignment G0434 and payment made by the Claims Administrator was not correct.
- Additional reimbursement of G0431 is warranted.
- A 15% PPO discount is to be applied to reimbursement.

The table below describes the pertinent claim line information.
