HOW THE IBR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services Chief Coding Specialist reviewed the case file and researched pertinent coding and billing standards to reach a determination. In some cases a physician reviewer was employed to review the clinical aspects of the care to help make a determination. He/she has no affiliation with the employer, employee, providers or the claims administrator. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/services.

ANALYSIS AND FINDING

Based on review of the case file the following is noted:

- **ISSUE IN DISPUTE: Provider seeking remuneration for 63650-59 for date of service 08/27/2015**
- The Claims Administrator's denial rationale indicates the following: "value of this procedure is included/bundled within the value of another procedure performed."
- UB-04 reflects **Bill Type "831."**
- Opportunity to Dispute Eligibility communicated to Claims Administrator on 1/26/2016; response not yet received.
- Contractual Agreement not submitted for IBR.
- For services rendered on or after December 1, 2014, section 9789.30, subsections (a) adjusted conversion factor, (e) APC payment rate, (f) APC relative weight, (j) Facility Only Services, (q) labor-related share, (r) market basket inflation factor, and (z) wage index, are adjusted to conform to the Medicare hospital outpatient prospective payment system (HOPPS) final rule of December 10, 2013, the relative values in the 2014 Medicare Physician fee schedule, and the wage index values in the Medicare IPPS final rule of August 19, 2013, and associated rules and notices to the IPPS final rule published in the Federal Register.
- Based on the provider type, the reimbursement for services is calculated on the Centers for Medicare and Medicaid Services (CMS) Outpatient Prospective Payment System (OPPS). Procedures are assigned APC weights and "Proposed Payment Status Indicators." The CPT 63650 has an assigned indicator of "S". The "S" indicator definition is "Significant procedure, not discounted when multiple" and **qualifies for separate APC payment.**
- 63650, Status Indicator "S," and is not subject to MPPR.

- For services rendered on or after September 1, 2014 APC relative weight x adjusted conversion factor x 0.808 workers' compensation multiplier, pursuant to Section 9789.30(aa). See Section 9789.39(b) for the APC relative weight by date of service.
- **Based on the aforementioned documentation and guidelines, additional reimbursement for 63650-59 is warranted.**

The table below describes the pertinent claim line information.
