### HOW THE IMR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services sent the complete case file to an expert reviewer. He/she has no affiliation with the employer, employee, providers or the claims administrator. He/she has been in active clinical practice for more than five years and is currently working at least 24 hours a week in active practice. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/Service. He/she is familiar with governing laws and regulations, including the strength of evidence hierarchy that applies to Independent Medical Review determinations.

The Expert Reviewer has the following credentials:  
 State(s) of Licensure: California, Indiana, Oregon  
 Certification(s)/Specialty: Orthopedic Surgery

### CLINICAL CASE SUMMARY

The expert reviewer developed the following clinical case summary based on a review of the case file, including all medical records:

The injured worker is a 71 year old male, who sustained an industrial injury on 08/04/2014. The injured worker is currently working. The injured worker is currently diagnosed as having knee contusion, meniscus tear, and knee pain. Treatment and diagnostics to date has included right knee MRI which showed a large joint effusion with extensive subcutaneous soft tissue edema and bone marrow edema and medications. In a progress note dated 05/22/2015, the injured worker presented with complaints of knee pain that is not getting any better. Objective findings were not included in progress note. The treating physician reported requesting authorization for right knee arthroplasty and associated surgical services, continuous passive motion machine, cane, postoperative Vicodin ES, and physical therapy.

### IMR ISSUES, DECISIONS AND RATIONALES

The Final Determination was based on decisions for the disputed items/services set forth below:

**Right total knee arthroplasty:** Upheld

**Claims Administrator guideline:** The Claims Administrator did not cite any medical evidence for its decision.

**MAXIMUS guideline:** The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) knee.

**Decision rationale:** CA MTUS/ACOEM is silent on the issue of total knee replacement. According to the Official Disability Guidelines regarding Knee arthroplasty: Criteria for knee joint replacement which includes conservative care with subjective findings including limited range of motion less than 90 degrees. In addition the patient should have a BMI of less than 35 and be older than 50 years of age. There must also be findings on standing radiographs of significant loss of chondral clear space. In this case, neither the x-ray nor MRI shows evidence of advanced arthrosis to warrant knee replacement. The request is not medically necessary.

**Associated surgical service: inpatient 3 days:** Upheld

**Claims Administrator guideline:** The Claims Administrator did not cite any medical evidence for its decision.

**MAXIMUS guideline:** The Expert Reviewer did not cite any medical evidence for its decision.

**Decision rationale:** Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

**Associated surgical service: CPM machine x 14 days:** Upheld

**Claims Administrator guideline:** The Claims Administrator did not cite any medical evidence for its decision.

**MAXIMUS guideline:** The Expert Reviewer did not cite any medical evidence for its decision.

**Decision rationale:** Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

**Associated surgical service: Cane:** Upheld

**Claims Administrator guideline:** The Claims Administrator did not cite any medical evidence for its decision.

**MAXIMUS guideline:** The Expert Reviewer did not cite any medical evidence for its decision.

**Decision rationale:** Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

**Post op Vic-ES #90 with 2 refills:** Upheld

**Claims Administrator guideline:** The Claims Administrator did not cite any medical evidence for its decision.

**MAXIMUS guideline:** The Expert Reviewer did not cite any medical evidence for its decision.

**Decision rationale:** Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

**Associated surgical service: physical therapy 2 times a week for 6 weeks:** Upheld

**Claims Administrator guideline:** The Claims Administrator did not cite any medical evidence for its decision.

**MAXIMUS guideline:** The Expert Reviewer did not cite any medical evidence for its decision.

**Decision rationale:** Since the primary procedure is not medically necessary, none of the associated services are medically necessary.

**Associated surgical service: surgical assist x 1:** Upheld

**Claims Administrator guideline:** The Claims Administrator did not cite any medical evidence for its decision.

**MAXIMUS guideline:** The Expert Reviewer did not cite any medical evidence for its decision.

**Decision rationale:** Since the primary procedure is not medically necessary, none of the associated services are medically necessary.
