HOW THE IMR FINAL DETERMINATION WAS MADE

MAXIMUS Federal Services sent the complete case file to an expert reviewer. He/she has no affiliation with the employer, employee, providers or the claims administrator. He/she has been in active clinical practice for more than five years and is currently working at least 24 hours a week in active practice. The expert reviewer was selected based on his/her clinical experience, education, background, and expertise in the same or similar specialties that evaluate and/or treat the medical condition and disputed items/Service. He/she is familiar with governing laws and regulations, including the strength of evidence hierarchy that applies to Independent Medical Review determinations.

The Expert Reviewer has the following credentials:

State(s) of Licensure: Maryland

Certification(s)/Specialty: Physical Medicine & Rehabilitation, Neuromuscular Medicine

CLINICAL CASE SUMMARY

The expert reviewer developed the following clinical case summary based on a review of the case file, including all medical records:

The injured worker is a 33-year-old female who sustained an industrial injury on 11/25/12. Initial complaints and diagnoses are not available. Prior treatments consist of medications and knee surgery. Prior diagnostic studies are not discussed. A Functional Capacity evaluation has been completed. Current complaints consist of right knee pain. In a progress note dated 01/22/15 the treating provider reports the treatment plan consists of continued medication, acupuncture, and a gym membership with a pool for one year. The requested treatment is a gym membership with a pool for a period of one year.

IMR ISSUES, DECISIONS AND RATIONALES

The Final Determination was based on decisions for the disputed items/services set forth below:

12 Month Gym Membership with Access to Pool: Upheld

Claims Administrator guideline: Decision based on MTUS ACOEM, Chronic Pain Treatment Guidelines.

MAXIMUS guideline: The Expert Reviewer did not base their decision on the MTUS. Decision based on Non-MTUS Citation Official Disability Guidelines (ODG) Low Back- Gym memberships.

Decision rationale: 12 Month Gym Membership with Access to Pool is not medically necessary per the ODG Guidelines. The MTUS does not specifically address gym memberships. The ODG does not recommend gym membership as a medical prescription unless a documented home exercise program with periodic assessment and revision has not been effective and there is a need for equipment. In addition, treatment needs to be monitored and administered by medical professionals. With unsupervised programs, there is no information flow back to the provider, so he or she can make changes in the prescription, and there may be risk of further injury to the patient. Gym memberships, health clubs, swimming pools, athletic clubs, etc, would not generally be considered medical treatment, and are therefore not covered under these guidelines. The documentation submitted does not reveal that periodic assessment and revision of a documented home exercise program has not been effective. The request for a 12 Month Gym Membership with Access to Pool is not medically necessary.
