**First Report of Injury (FROI)**--Injured workers' claims based upon the reported calendar year of injury from 2000 through 2011 using DN 31 (date of injury). These are unique counts of Jurisdiction Claim Numbers (DN 5) processed in the Workers' Compensation Information System (WCIS).

A significant amount of variation across years results from noncompliance and late reporting of claims. DWC believes that its database is representative of claims in California's workers' compensation (WC) industry.
