ENGINEERING AND UTILITY CONTRACTORS ASSOCIATION

02.04.00 Employee. The term "Employee" as used herein shall mean any person, without regard to race, color, religion, sex, age, national origin, handicap or disability (as provided for in the Americans With Disabilities Act of 1990), and shall include those persons covered by the Vietnam Era Veterans Readjustment Assistance Act of 1972:

- (b) who operates, monitors and controls, maintains, repairs, modifies, assembles, erects, services each or all of them, power-operated equipment of the type or kind of power-operated equipment used in the performance of work referred to in (a) above, regardless of whether such power-operated equipment is mechanically, electrically or electronically, hydraulically, automatically or remotely controlled, and
- (c) who assists or helps in the operation, maintenance, repairing or assembling, erecting or servicing of such power-operated equipment of the type or kind of equipment used in the performance of work referred to in (a) above, and who qualifies to register in a Job Placement Center, provided that the foregoing shall not apply to superintendents, assistant superintendents, general foremen, foremen, timekeepers, messengers, guards, confidential employees, office help, inspectors, and persons specifically excluded elsewhere in this Agreement.

02.05.00 Unit Work. This Agreement shall cover and apply to all activities of the Individual Employer in the area covered by this Agreement falling within the recognized jurisdiction of the Union, including, but not limited by inference or otherwise, to building construction, demolition, site clearing, geothermal drilling, pipelines, oil or gas refineries (excluding the falling and removal of merchantable timber by the purchaser of merchantable timber), work covered by Section 13.00.00, Steel Fabricators and Erectors, which work and equipment shall be covered by Section 13.00.00, Steel Fabricators and Erectors, and work covered by Section 14.00.00, Piledriving, which work and equipment shall be covered by Section 14.00.00, Piledriving. It shall also apply to all maintenance, modification and repair work and facilities, on-site or off-site, of an Individual Employer in the area covered by this Agreement, except an off-site repair or maintenance facility with respect to which the Individual Employer is in a bona fide collective bargaining relationship with a labor organization covering such Individual Employer's off-site maintenance and repair facility at the time the Individual Employer becomes a party to, or covered by, this Agreement. This Agreement shall

also apply to the operation, modification, maintenance, and repair of equipment covered by this Agreement (including the additions under provision for Additional Work or Classifications, Section 20.00.00) established for the production of borrow, rip-rap, rock, sand, gravel, aggregates of all kinds, concrete (excluding cement), asphalt or macadam or other road-surfacing materials (excluding oil) by an Individual Employer or his subcontractor which is to be incorporated into a specific job(s) or project(s) of the Individual Employer so long as such material is actually being produced or delivered to such job or project; such work will be considered on-site.

09.04.00 Combination mixer and compressor operator on gunite work shall be classed as servicing a Specialty craft or crafts.

Manning under this Section 13.00.00 shall be as provided in Section 07.00.00, "MANNING," except tank erection work or structural steel work which shall be manned as provided in this Section 13.00.00 and 01.03.02. Employees performing work in classifications not set forth in Section 01.03.02 shall be considered support Employees, and shall be paid at the wage rates for the classifications set forth in Section 01.03.00, and shall work under the terms and conditions contained in the main body of this Agreement excluding this Section 13.00.00.

13.01.00 Only Employees manning hoisting equipment working four (4) hours or more in support of a crew or crews consisting of four (4) men or more of the crafts listed below shall be covered by and under this Section 13.00.00:

13.02.00 Coverage. This Section 13.00.00 shall cover and apply only to hoisting work performed and power-operated equipment customarily operated by the Union in conjunction with the crews of the International Association of Bridge, Structural and Ornamental Iron Workers Union, with the International Brotherhood of Boilermakers, Iron Shipbuilders, Blacksmiths and Helpers; or with the United Association of Journeymen and Apprentices of the Plumbing and Pipe Fitting Industry of the United States and Canada, or with the International Brotherhood of Electrical Workers.

14.00.00 PILEDIVING

14.01.02 Work Covered. The operation, repair and maintenance of engines and machinery and the operation of deck engines in connection with piledrivers and derrick barges engaged in the following work shall be performed by Employees working under this Agreement:

- (1) The driving by steam, electric, hydraulic, drop hammer, bodine hammer, or any other device used, staying, capping, pulling and cutting off of all pre-cast concrete piles, pile jackets, composite piles, cast-in-place piles, and any and all pre-cast structural shapes and units, the setting of which is performed with power equipment or piledriving and setting equipment.

- (2) The placing, framing, driving (by steam, hydraulic, electric, drop hammer, bodine hammer or any other device used), fastening, capping and pulling of piling of every kind.
- (3) The construction of wharves, decks, trestles, viaducts, bridges and similar structures, up to and including the decks thereof. The construction of substructures of underpasses, subways, overhead crossings, pre-cast bulkheads, and other similar structures where piledriving or other derrick equipment or other power-operated equipment customarily operated by the Union is used. The building of ferry slips, cofferdams, open cribs, caissons, dry docks and marine railways and in the construction and erection of towers, bunkers and other similar structures necessary for the completion of the above-mentioned projects.
- (4) The moving and placing of heavy machinery, boilers, tanks, guns and similar masses when and where hoisting and portable equipment is used. This work shall be done, when necessary and expedient, in conjunction with machinery mechanics from other crafts.
- (5) The wrecking and dismantling of all structures covered by (1) through (4).

15.00.00 SPECIAL WORKING RULES AND CONDITIONS FOR WORKING UNDERGROUND

15.03.00 These Special Working Rules and Conditions cover all work and equipment involved in the excavation and initial lining, if applicable, below the surface of the earth except open ditches, excavations and jacking operations under highways, railroads, embankments, etc., but not limited to tunnels, shafts, tunnel shafts, adits, raises, subways, chambers and underground installations including but not limited to power houses, storage facilities, offices, control centers or surge chambers including the lining of same which fall within the jurisdiction of the Union or require the operation of equipment of the kind or type covered by this Agreement. Where open cutwork is covered over or decked, regardless of the material or materials used, and men are required to work under such cover, they shall work and be paid in

accordance with the terms and conditions of this Section for all excavation work.

15.03.01 For the purposes of this Section 15.00.00, tunnels, raises and shafts shall be defined as follows:

Tunnel. An underground excavation (lined or unlined) whose length exceeds its width the inclination of the grade from the excavation shall be no greater than 20° from the horizontal; should the inclination of grade from the horizontal exceed 20° , the excavation heretofore defined shall constitute a raise.

Shaft. An excavation (lined or unlined) made from the surface of the earth, generally vertical in nature, but may decline up to 75° from the vertical, and whose depth is greater than 15 feet and its largest horizontal dimension. For the purposes of this Section an underground silo shall be defined the same as a shaft.
