Modular Furniture Installer: (Carpenter)

ID

23-31-15

LOCALITY

46 Northern California Counties

SCOPE OF WORK

Amend Section 2.01.00 (Scope of Work) as follows:

This Agreement shall cover the handling, installation, removal, relocation and maintenance of all new or used manufactured modular furniture systems ("Furniture Systems"), [REDACTED]. Specifically included within the scope of this Agreement are the handling, installation, (including attachment or fastening by any means required), removal, relocation and maintenance of all manufactured parts (which come unassembled or are disassembled of any material, including, but not limited to, metal, plastic, fabric or glass), components (including, but not limited to, desks, filing systems, [REDACTED] /work surfaces, storage cubbies), all types of high density filing/storage/[REDACTED] systems, wall track, mounts, cleats, power poles or similar wall or floor attachments not part of a raised floor or floor to ceiling wall product.

This Agreement shall cover all work related and/or incidental thereto in conjunction with the installation, handling, unboxing, distribution, scrapping, and staging of any and all types of window coverings including, but not limited to, draperies, curtains, shades of all types, vertical and horizontal blinds of all types, blackout curtains, shears, shutters, and draperies used for privacy screens or as sound deadening devices.

Any "incidental" work covered by the Master Agreement required for the installation, removal, relocation and maintenance of window coverings or Furniture Systems or components (e.g. cutting, notching, scribing) shall be performed under the terms and conditions of this Agreement. "Incidental" shall be defined as sixty (60) minutes or less of continuous work in one (1) work day. Any work beyond incidental work described above shall be compensated at the applicable journeyman wage and fringe benefit rates contained in the Master Agreement.

Employees working under this Addendum who perform the handling, unboxing, distribution, scrapping, cleaning and staging from the loading dock to the site of installation of raised flooring systems, demountable floor to ceiling wall systems/partitions, and floor to ceiling partitioning that is secured by a fastening device to the floor and ceiling shall be compensated under the provisions of this Agreement [REDACTED] All cutting, modifying, layout and other work associated with the construction of raised flooring systems, demountable floor to ceiling wall systems/partitions that is secured by a fastening device to the floor and ceiling

performed at the site of installation shall be performed under the wage provisions of the Master Agreement. The installation of the track and deck for high density filing/storage systems shall be performed under the wage provisions of the Master Agreement. All seismic attachment associated with Furniture Systems, raised flooring and demountable floor to ceiling wall systems/partitions, shall be performed under the wage provisions of the Master Labor Agreement.

All other work performed by the employer shall be performed under the terms and conditions of the Master Agreement including, but not limited to, the wage and fringe benefit provisions of the Master Agreement.

Due to the ever-changing nature of the industry, this Section 2.01.00 may be modified by mutual agreement of the parties during the term of this Agreement.
